Bibliography

FOREWORD

The Calendaring and Scheduling Consortium (“CalConnect”) is a global non-profit organization with the aim to facilitate interoperability of collaborative technologies and tools through open standards.

CalConnect works closely with international and regional partners, of which the full list is available on our website (<https://www.calconnect.org/about/liaisons-and-relationships>).

The procedures used to develop this document and those intended for its further maintenance are described in the CalConnect Directives.

In particular the different approval criteria needed for the different types of CalConnect documents should be noted. This document was drafted in accordance with the editorial rules of the CalConnect Directives.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CalConnect shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be provided in the Introduction.

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

This document was prepared by Technical Committee *VCARD*.

INTRODUCTION

Personal names are among the most commonly exchanged information on the Internet. However, the detail of personal names during interchange often recedes to the lowest common denominator understood by both sides, which is a plain string.

Such exchange invariably entails the loss of most semantic structure of a personal name, causing a range of issues from inappropriate greetings at hotels to failure of name verification at national borders.

This International Standard facilitates the interchange and interaction of names between humans and applications without loss of fidelity.

This standard addresses the structure of personal names in ISO standards covering topics such as bibliographic management, personal identification documents, electronic messaging, e-commerce to postal applications.

1. SCOPE

This document specifies a reference model for “personal names”, suitable for machine encoding, for digital storage and transmission.

The reference model is composed of the following data elements:

- personal name components;
- cultural name profiles for personal name patterns; and
- template definitions for the display and input of personal names.

This document does not handle the linkage of a personal name to an identity.

The personal name model is used to encode a person’s personal names for:

- as a static data element
- as an interoperable data structure used with databases

The cultural name profile model is used to guide rendering of a name model instance as a string as appropriate to the applied cultural name profile.

2. NORMATIVE REFERENCES

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

- ISO 639-1, *Codes for the representation of names of languages*
- ISO 15924, *Codes for the representation of names of scripts*
- ISO 24229, *Information and documentation – Codes for script conversion systems*

3. TERMS AND DEFINITIONS

For the purposes of this document, the following terms and definitions apply.

3.1. name

verbal *designation* (ISO 5127:2017, Clause 3.1.5.24) of an *individual concept* (ISO 5127:2017, Clause 3.1.2.16)

[SOURCE: ISO 5127:2017, Clause 3.1.5.28]

3.2. person

human being

[SOURCE: ISO/IEC TS 29003:2018, Clause 3.12]

3.3. personal name

anthroponym

name (Clause 3.1) of a *person* (Clause 3.2)

[SOURCE: ISO 5127:2017, Clause 3.1.5.43, modified – preferred term *personal name* used in this document, replaced term *human being* with term *person* used in this document.]

3.4. locale

definition of the subset of a user's environment that depends on language and cultural conventions

[SOURCE: ISO/IEC/IEEE 9945:2009, Clause 4.211]

3.5. criterion

threshold or value of a variable to be met

[SOURCE: ISO/TS 14198:2012, Clause 3.2]

3.6. name display profile

profile that associates a set of *criteria* (Clause 3.5) and *layout templates* (Clause 3.12)

3.7. data type

set of representable values

[SOURCE: ISO/IEC 9075-1:2016, Clause 3.1.1.4]

3.8. primitive type

pre-defined basic datatype without any substructure, such as an integer or a string

[SOURCE: ISO 14813-5:2010, Clause B.1.118]

3.9. localized string

user-context-dependent string determined by a particular *locale* (Clause 3.4)

[SOURCE: ISO/IEC 20944-1:2013, Clause 3.21.10.2, modified – added reference to term *locale*]

3.10. template fragment

localized string (Clause 3.9) or *name component* (Clause 3.11) used in a *name display template* (Clause 3.12)

3.11. name component

component that forms part of a *personal name* (Clause 3.3)

3.12. name display template

specification of ordering of *template fragments* (Clause 3.10) for a *name display profile* (Clause 3.6) of a *cultural name display profile* (Clause 3.13)

3.13. cultural name display profile

set of *name display profiles* (Clause 3.6) pertaining to a particular *culture* (Clause 3.14)

3.14. culture

pattern of beliefs and expectations shared by the organization's members

[SOURCE: ISO/TR 14105:2011, Clause 2.1]

3.15. language identifier

language symbol

symbol that uniquely identifies a particular language

[SOURCE: ISO 639-3, Clause 3.3]

3.16. script

set of graphic characters used for the written form of one or more languages

[SOURCE: ISO 15924, Clause 3.7]

3.17. script code

combination of characters used to represent the name of a *script* (Clause 3.16)

[SOURCE: ISO 15924, Clause 3.8]

3.18. URI

compact sequence of characters that identifies an abstract or physical resource

[SOURCE: ISO 12234-3:2016, Clause 3.4]

3.19. family name

surname

last name

portion of a personal name that indicates a person's family, tribe or community, depending on the culture where the personal name originates from

Note 1 to entry: Not all cultures provide a family name in a personal name.

3.20. given name

component of a personal name that can be used to identify a person

Note 1 to entry: There could be more than one given name in a personal name.

3.21. first name

forename

given name used to identify a person in some cultures

Note 1 to entry: There could be more than one first name in some cultures.

3.22. middle name

given name in some cultures that is not a first name or a family name

3.23. genonymic

name derived from given name of an ancestor

Note 1 to entry: the genonymic could come from a parent, grandparent or an earlier ancestor.

3.24. patronymic

genonymic derived from given name of father

3.25. matronymic

genonymic derived from given name of mother

3.26. avonymic

genonymic derived from given name of grandfather

3.27. paedonymic

given name derived from given name of child

3.28. mononym

given name that is the entirety of a personal name

3.29. style

honorific

honorific title

name or title given to, or used by, a person as a mark of status or respect

3.30. religious name

name or title given to, or used by, a person according to the tradition of the person's religion

3.31. title

name that describes a position or job

3.32. nickname

familiar name given to a person instead of or as well as the real personal name

EXAMPLE 1

“Misha” for “Mikhail” in Russian

EXAMPLE 2

“Bill” for “William” in English

3.33. maiden name

family name that a married woman used prior to its being changed at marriage

4. DATA TYPES

These are the basic data types used in this document.

Figure 1

Uri	Container for URIs, as defined by RFC 3986 .
Iso639Code	Code for language or language family, as specified in ISO 639 . The specification is open as to whether the two-letter code or the three-letter code for languages is used.
Iso15924Code	Code for scripts (writing scripts), as specified in ISO 15924:2004 .
NameString	String which optionally specifies its language and/or script.

5. PERSONAL NAME

5.1. General

A personal name is composed of multiple components. Personal names are modelled with the cultural origin and information provided within a personal name in mind.

A personal name is represented by the following model.

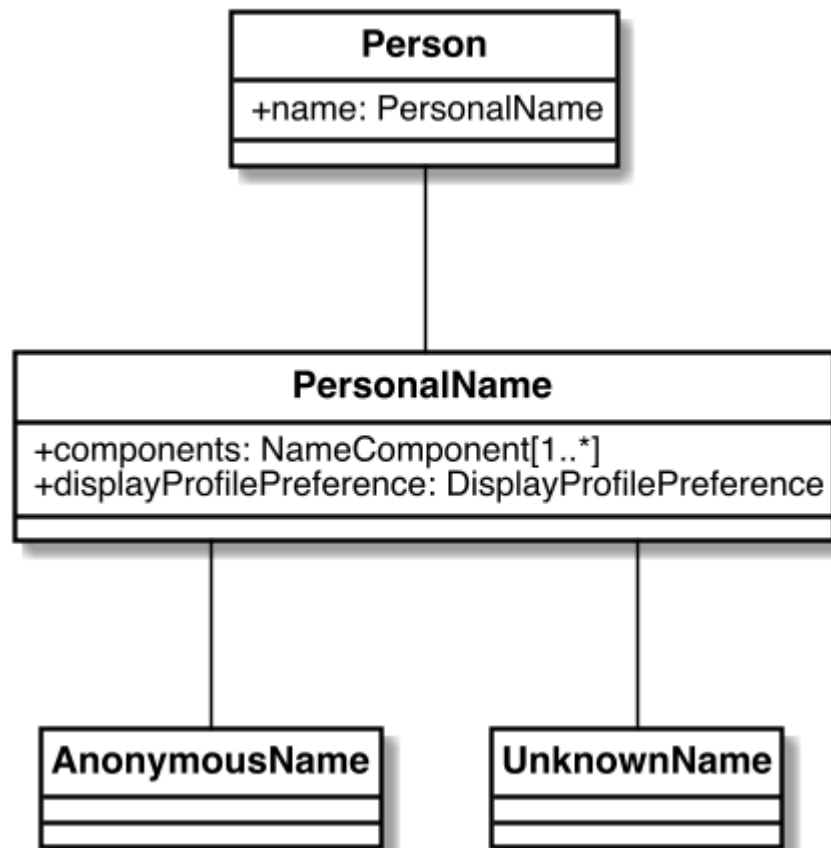

Figure 2

5.2. Modelling

Names are modelled in constituent components or as a complete name string.

The `initials` component is used if all forenames are replaced by initials. If only the middle name is replaced by an initial, it is still treated as a forename.

5.3. Pseudonyms and variant names

Variant names, and assumed names, can both be modelled as names.

5.4. Anonymous

A representation of an intentionally anonymous personal name.

5.5. Unknown

A representation of an unknown personal name.

5.6. Varii

Descriptors of individuals, such as “Various Authors”, should be given as `completeName` elements.

As with pseudonyms, the real name of the creator if known can be modelled as a note, or as a name variant.

6. NAME COMPONENT

6.1. General

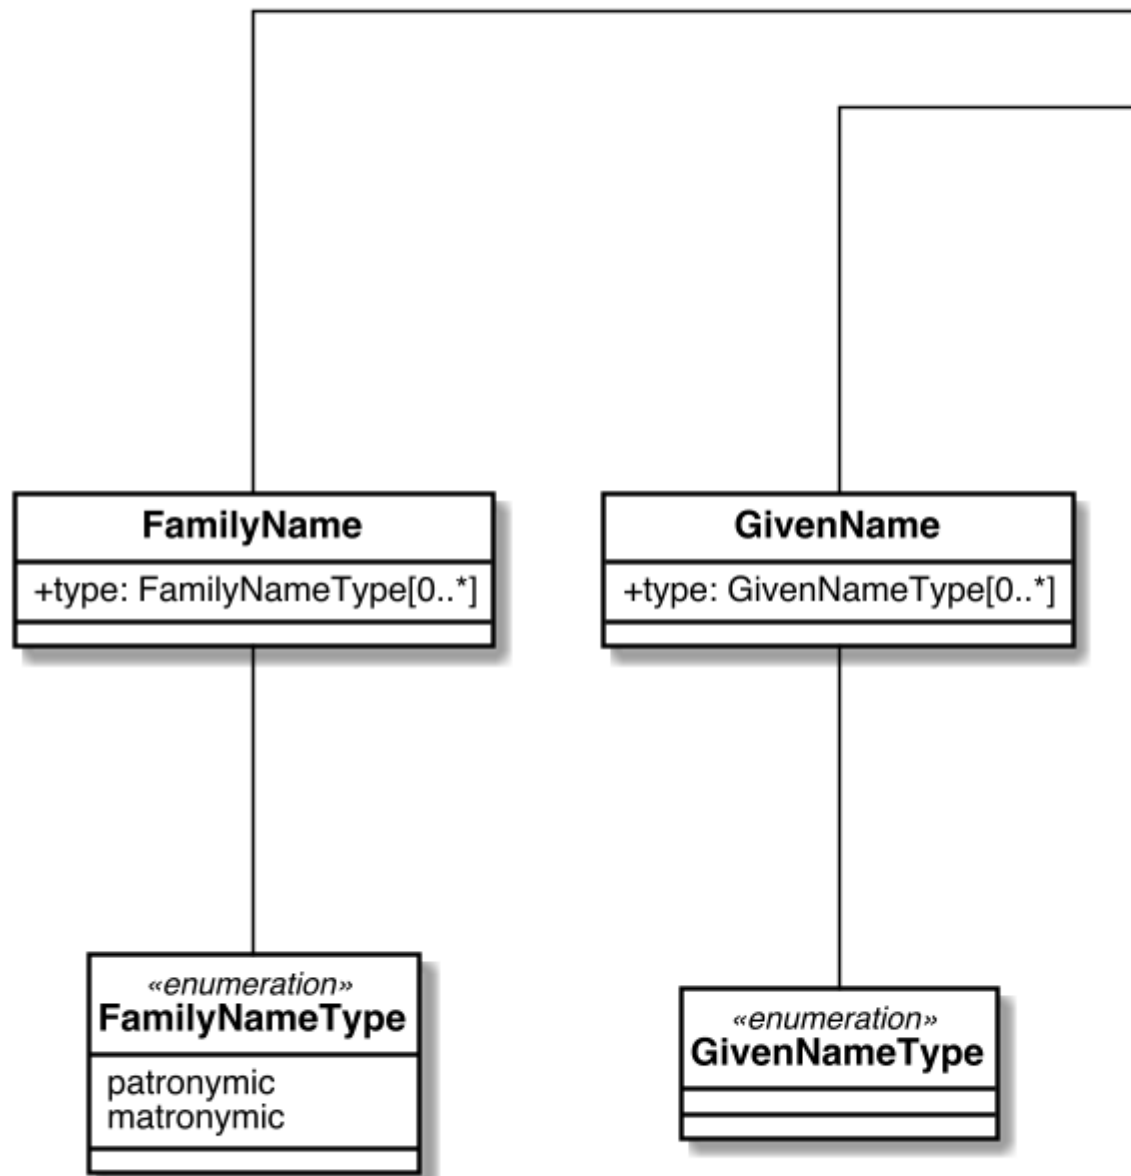

Figure 3

6.2. Pseudonym

A pseudonym or alias is a name that a person or group assumes for a particular purpose, which can differ from their given name(s).

- Art name
- Stage name
- Nickname
- Username
- Pen name
- Alias
- Code name
- Regnal name

6.3. Family name

6.3.1. General

The family name is the portion of a personal name that indicates a person's family (or tribe or community, depending on the culture).

Depending on the culture, all members of a family unit may have identical family names or there may be variations based on the cultural rules.

NOTE Not all cultures provide a family name in a personal name.

6.3.2. Compound family name

A compound family name is one based on merged family names.

6.3.3. Icelandic name

6.3.4. Patrilineal family name

A patrilineal family name is a name originated from the family name of the father.

6.3.5. Matrilineal family name

A matrilineal family name is a name originated from the family name of the mother.

6.3.6. Matronymic

```
<family-name>  
  <type>matronymic</type>  
  <value>Helguson</value>  
</family-name>
```

6.3.7. Patronymic

A patronymic name is a name originated from the given name of the father or a patrilineal ancestor.

Different cultures have different ways of producing patronymic family names.

EXAMPLE

Mongolian: Otryadyn Gündegmaa, O. Gündegmaa, Otryadyn is the patronymic family name

6.3.8. Maiden name

6.3.9. Others

6.3.10. Mononymous

Some personal names are known and addressed by a single given name.

In some areas of the world, many people are known by a single name, and so are said to be mononymous.

NOTE Mononymic name is considered as a given name without a family name.

EXAMPLE

Thant, third Secretary-General of the United Nations.

6.4. Given name

Diagram of naming conventions, using John Fitzgerald Kennedy as an example.

The sarcophagus of Queen Desideria at Riddarholm Church in Sweden. The name was given to Desideria Clary not at birth but when she was created Crown Princess of Sweden in 1810.

A given name is usually is given to a person, normally to a child by his or her parents at or close to the time of birth.

By contrast, a family name (also known as a family name, last name, or gentile name), which is normally inherited, is typically shared with other members of one's immediate family. Regnal names and religious or monastic names are special given names bestowed upon someone receiving a crown or entering a religious order. Such a person then typically becomes known chiefly by that name.

6.4.1. Arabic name

Arabic names were historically based on a long naming system; most Arabs did not have given/middle/family names, but a full chain of names. This system was mainly in use throughout the Arab world.

- Ism, given name, first name or personal name
- Laqab, family name, nickname, title, honorific
- Nasab, patronymic series
- Nisbah, family name
- Kunya, teknonym (name of first son or daughter) or nickname

6.4.2. Religious name

6.4.2.1. Christian name, baptismal name, confirmation name

EXAMPLE

The baptised name of “Sun Yat Sun”, the father of modern China, is “Yat Sun” (孫).

6.4.2.2. Papal name

A papal name or pontifical name is the regnal name taken by a pope.

Both the head of the Catholic Church, usually known as the Pope, and the Pope of the Coptic Orthodox Church of Alexandria (Coptic Pope) choose papal names.

EXAMPLE 1

John Paul II.

EXAMPLE 2

Tawadros II

6.4.3. Generational name

EXAMPLE 1

Jose Maria Rodrigues Jr.

EXAMPLE 2

King George VI

6.5. Nicknames

EXAMPLE 1

The given name “José” in Spanish often goes by the nickname “Pepe”.

EXAMPLE 2

The given name “William” in English often goes by the nickname “Bill”.

6.6. Honorific

6.6.1. General

A style of office or honorific is an official or legally recognized title.

An honorific is a title that conveys esteem or respect for position or rank when used in addressing or referring to a person.

Different types of honorific:

EXAMPLE

“Mr.”, “Ms.”

NOTE Bibliographic entries often encounter this problem of separation of name and honorifics.

6.6.2. Social

6.6.3. Professional

EXAMPLE

Doctor, Dr.

6.6.4. Honors

6.6.5. Academic

6.6.6. Royal

- Her Majesty: style
- Queen: title
- Elizabeth: given name
- The Queen Mother: nick name

Titles and styles

- 4 August 1900 – 16 February 1904: The Honourable Elizabeth Bowes-Lyon
- 16 February 1904 – 26 April 1923: Lady Elizabeth Bowes-Lyon
- 26 April 1923 – 11 December 1936: Her Royal Highness The Duchess of York
- 11 December 1936 – 6 February 1952: Her Majesty The Queen
- 11 December 1936 – 14 August 1947 (for British India): Her Imperial Majesty The Queen-Empress
- 6 February 1952 – 30 March 2002: Her Majesty Queen Elizabeth the Queen Mother

EXAMPLE 1

- Duchess: rank
- of: rank association word
- York: rank association place name

EXAMPLE 2

```
<style>urn:iso:name:style:uk:hrh</style>  
<honorific>
```

<pre> <rank> <type>urn:iso:name:honorific:rank:duchess</type> <place>York</place> </rank> </honorific> </pre>
<pre> <urn:rank> Duchess <urn:rank:place> <urn:rank:place:association> of </urn:rank:place:association> York </urn:rank:place> </urn:rank> </pre>

6.6.7. Style of office

A style of office is an official or legally recognized title.

Such styles are associated with monarchies, presidents, members of legislative bodies, judges, office holders and religious figures.

EXAMPLE 1

“Avul Pakir Jainulabdeen Abdul Kalam”, former President of India, styled as “His Excellency Dr. A.P.J. Abdul Kalam”.

EXAMPLE 2

“The Honorable Ruth Bader Ginsburg” in the United States.

EXAMPLE 3

“His Honour Judge Michael Wong” in Hong Kong.

6.6.8. Rank

EXAMPLE

Esquire as a social rank in UK (lawyer in US)

6.6.9. Position

6.6.10. Qualification

- “Dr.”
- “J.D.”
- “M.D.”
- “Ph.D.”
- “Ir.”

6.6.11. Occupation

- “Doctor”
- “Esquire”
- “Captain”
- “Coach”
- “Officer”
- “Reverend”
- “Father”
- “Rabbi”
- “Professor”

6.6.12. Role

EXAMPLE

Ex-President

6.6.13. Honors

Orders of chivalry confer titles to its holders.

EXAMPLE 1

The Most Excellent Order of the British Empire is a British order of chivalry, conferring appointments to classes including: “Knight Grand Cross or Dame Grand Cross of the Most Excellent Order of the British Empire (GBE)”, “Knight Commander or Dame Commander of the Most Excellent Order of the British

Empire (KBE or DBE)”, “Commander of the Most Excellent Order of the British Empire (CBE)”, “Officer of the Most Excellent Order of the British Empire (OBE)” and “Member of the Most Excellent Order of the British Empire (MBE)”.

EXAMPLE 2

“Sir Hugh Beach, GBE KCB MC”.

7. NAME PATTERN

7.1. General

Personal name order depends on the cultural profile of the name.

EXAMPLE 1

The name order of “[given name(s)] [family name]” is commonly used throughout most European countries.

EXAMPLE 2

The name order of “[family name] [given name(s)]” is commonly used in East Asia (for example in China, Japan, Korea, Malaysian Chinese, Singapore, and Vietnam, among others), as well as in Southern and North-Eastern parts of India, and in Hungary.

EXAMPLE 3

The name order of “[given name(s)] [father’s family name] [mother’s family name]” is commonly used in Spanish-speaking countries such as Spain and Uruguay.

7.2. Abbreviation

EXAMPLE

“Pablo Diego José Francisco de Paula Juan Nepomuceno María de los Remedios Cipriano de la Santísima Trinidad Ruiz y Picasso” becomes “Pablo Ruiz y Picasso”.

8. NAME PROFILE

8.1. General

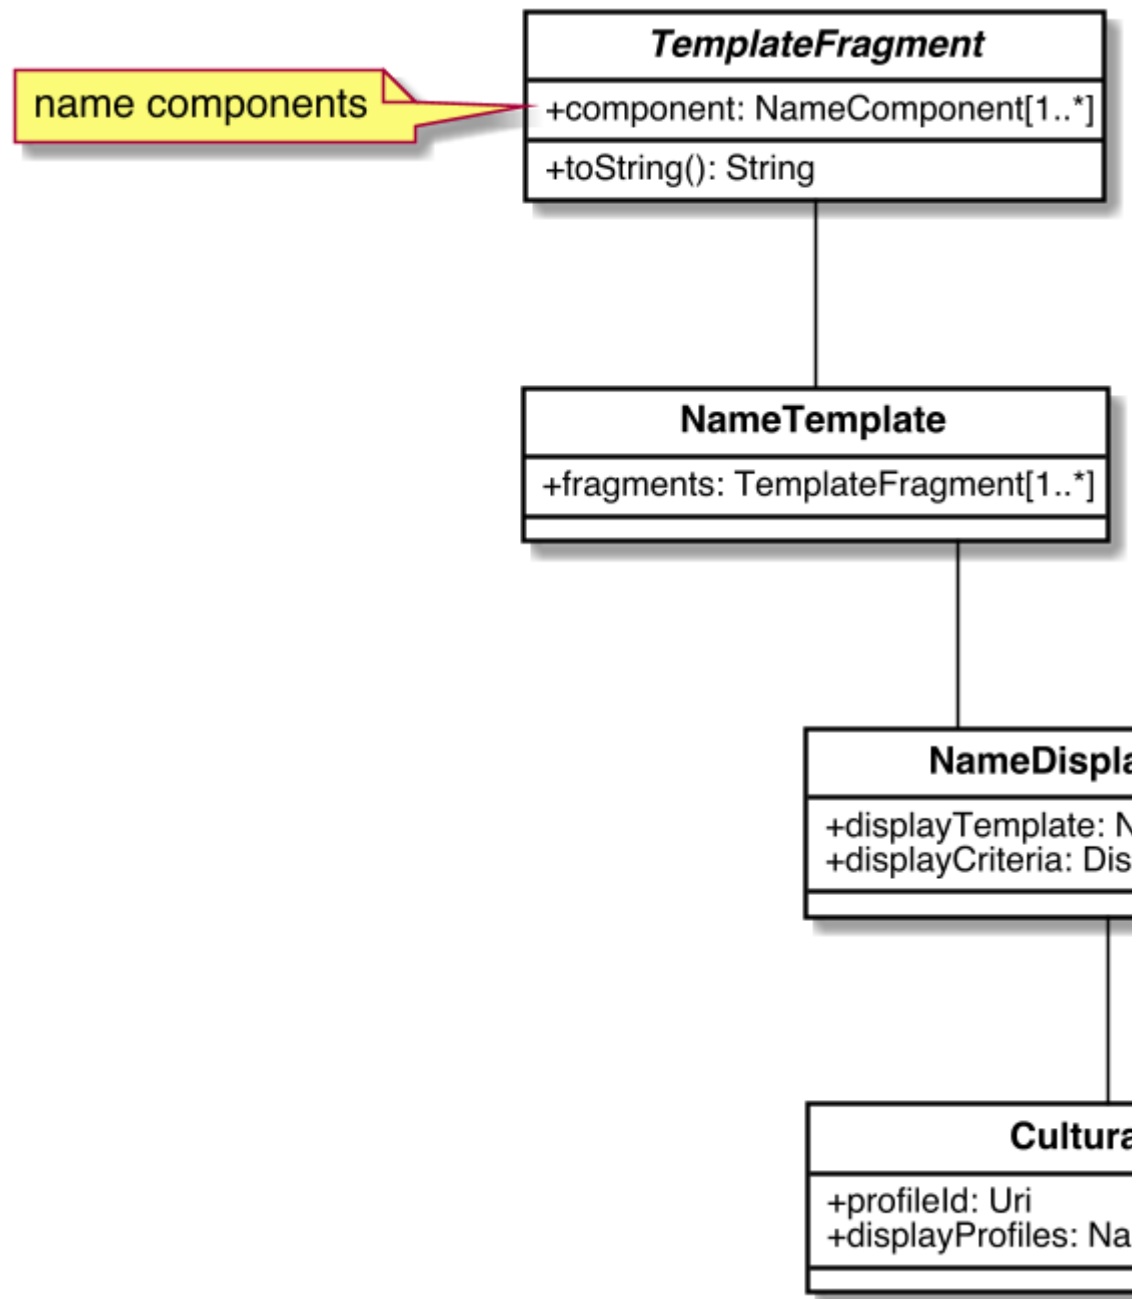

Figure 4

8.2. Rendering of name

- Preference of presentation

- Contextual presentation: formal, informal, etc.

8.3. Name concerns

In the rendering of a personal name, the following concerns are important.

- If the personal name is made to fit into a shorter string length, which elements should remain.

EXAMPLE 1

“Pablo Diego José Francisco de Paula Juan Nepomuceno María de los Remedios Cipriano de la Santísima Trinidad Ruiz y Picasso” becomes “Pablo Ruiz y Picasso”.

- If a personal name is made to fit into a short length, how to render an appropriate, abbreviated name.

EXAMPLE 2

“Avul Pakir Jainulabdeen Abdul Kalam”, former President of India, is abbreviated as “A. P. J. Abdul Kalam”.

APPENDIX A (NORMATIVE) ENUMERATION OF NAME COMPONENTS

- urn:iso:name:honorific:occupation:professor

A.5. Role name

A.6. Generational name

- Junior
- Senior
- Numerical

APPENDIX B (INFORMATIVE) CULTURAL NAMING PROFILES

B.1. Afghan

B.2. Albanian

B.3. Arab-Muslim

B.4. Bangladeshi

B.5. Bosnian, Serbian, Croats

B.6. Brazilian

B.7. Bulgarian

B.8. Chinese

family name + given name(s)

Chinese personal names are names used by those from mainland China, Hong Kong, Macau, Taiwan, and the Chinese diaspora overseas.

Chinese names consist of a family name (姓, xìng), followed by a given name (名, míng).

Some people also utilize a “courtesy name” or “style name” (字, zì), by which they were known among those outside their family and closest friends.

B.9. Colombian

B.10. Czech

B.11. English

given name(s) (+ optional family name)

English names are names used in, or originating in, England. In England as elsewhere in the English-speaking world, a complete name usually consists of a given name, commonly referred to as a first name or Christian name, and a (most commonly patrilineal) family name or surname, also referred to as a last name.

There can be several given names, some of these being often referred to as a second name, or middle name(s).

Double-barrelled names, compound surnames in English feature two words, are often joined by a hyphen or hyphens.

EXAMPLE 1

Henry Hepburne-Scott

Some families having as many as three or four words making up their surname.

EXAMPLE 2

Charles Hepburn-Stuart-Forbes-Trefusis, 21st Baron Clinton.

It is not unusual for compound surnames to be composed of separate words not linked by a hyphen.

EXAMPLE 3

Iain Duncan Smith has a surname of “Duncan Smith”.

B.12. French

given name(s) (+ optional family name)

French people have one, two or more given names (first names). One of them is used in daily life.

EXAMPLE 1

“Jacques Chirac” instead of officially of Jacques René Chirac.

EXAMPLE 2

“Philippe Pétain” instead of officially of Henri Philippe Pétain, because Philippe was the given name that he used in daily life.

Middle names in the English sense do not exist, and middle initials are never used for second or further given names.

EXAMPLE 3

Claude Allègre may be cited as “Claude J. Allègre” in English-speaking scientific publications, but not in French ones.

B.13. German

given name(s) (+ optional family name)

Personal names in German-speaking Europe consist of one or several given names (Vorname, plural Vornamen) and a surname (Nachname, Familienname). The Vorname is usually gender-specific.

Typical order of “given name, surname”.

EXAMPLE 1

Otto Eduard Leopold Fürst von Bismarck.

The Vorname (in English forename) is usually given to a child by the parents shortly after birth. It is common to give a child several Vornamen (forenames).

The Rufname (“appellation name” or “call name”) is the given name intended for everyday use, and is often underlined on official documents.

EXAMPLE 2

The Rufname of the mathematician Amalie Emmy Noether is “Emmy”.

B.14. Greek

B.15. Hindu

B.16. Hungarian

family name(s) + given name(s)

EXAMPLE 1

KOVÁCS János

If there is more than one given name, they come in order of importance after the family name:

EXAMPLE 2

KOVÁCS János Aladár.

There can be more than one family name, which can be written fully or abbreviated into initials:

EXAMPLE 3

SEGESDY KOVÁCS János

EXAMPLE 4

SEGESDY-KOVÁCS János

EXAMPLE 5

S.KOVÁCS János

EXAMPLE 6

SEGESDY K. János

B.17. Icelandic

given name(s) + (patronymic or matronymic) (+ optional genonymic) (+ optional family name)

Icelandic names differ from most current Western family name systems by being patronymic or occasionally matronymic: they indicate the father (or mother) of the child and not the historic family lineage.

Iceland's traditional name system was formerly used by all Nordic countries except partly Finland.

The Icelandic system is not based on family names (although some people do have family names and might use both systems). Generally, a person's second name indicates the first name of their father (patronymic) or in some cases mother (matronymic). According to Icelandic naming tradition, second names end in -son or -dóttir with few exceptions.

EXAMPLE 1

Jóhanna Sigurðardóttir. "Jóhanna, daughter of Sigurður".

EXAMPLE 2

Matronymic. Heiðar Helguson, "Helguson, son of Helga".

EXAMPLE 3

Örvar Þóreyjarson Smárason. (Örvar, son of Þórey, son of Smári)

Some family names do exist in Iceland, most commonly adaptations from last name patronyms Icelanders took up when living abroad.

EXAMPLE 4

Geir Haarde, Eiður Smári Guðjohnsen, Anita Briem.

EXAMPLE 5

Nobel Prize-winning author Halldór Laxness, born as Halldór Guðjónsson.

B.18. Indian

B.19. Indonesian

given name(s)

Indonesians generally use given names without a family name. The majority of Indonesians do not have family names. Rather, their given names are geographically and culturally specific.

EXAMPLE 1

Mulyono, the original name of Joko Widodo.

EXAMPLE 2

Kusno Sosrodihardjo.

EXAMPLE 3

Fransiskus Xaverius Hadi Rudyatmo

EXAMPLE 4

Sudono Salim

Some given names include a family name or a patronymic.

Indonesian names usually fall into one of the following categories:

- Mononymic names
- Polynymic names without a family name
- Polynymic names with a family name
- Polynymic names with patronymic

An Indonesian name is often mis-represented in other cultures, such as:

- Netherlands: the word “Onbekend” (“unknown”) is assigned as a last name
- Germany: the one-word name is used as both given name and surname
- US: “Fnu” (family name unknown) is assigned as the first or given name, “Lnu” (last name unknown) is assigned as the family, surname or last name, or the name is duplicated as the surname.

B.20. Iranian

B.21. Iraqi

B.22. Italian

given name(s) + family name

A name in Italian consists of a given name (nome) and a surname (cognome). Surnames are normally written after given names.

B.23. Japanese

family name + given name(s)

Japanese names usually consist of a family name (surname), followed by a given name.

Japanese names are usually written in kanji, where characters are logographic, but each with a variety of possible Japanese pronunciations. Therefore often names cannot in general be spelled or pronounced unless both the spelling and pronunciation are given.

EXAMPLE 1

Hiroto is traditionally pronounced “Hiroto”, but can also be pronounced as “Haruto”, “Yamato”, “Taiga”, “Sora”, “Taito”, “Daito”, and “Masato”.

EXAMPLE 2

大和 can be read as Daiwa or Yamato.

EXAMPLE 3

徳興 can be read as Tōkairin or Shōji

B.24. Jewish

given name(s) + family names

or

given name(s) + patronymic name

Modern Jewish names include Hebrew patronymic names as well as family names.

B.25. Korean

family name + given name(s)

A Korean name consists of a family name followed by a given name, as used by the Korean people in both South Korea and North Korea.

In the Korean language, ireum or seongmyeong usually refers to the family name (seong) and given name (myeong) together.

B.26. Kurdish

B.27. Latvian

B.28. Lithuanian

B.29. Macedonian

B.30. Manchu

given name(s) (+ optional family name)

Manchus are called only by their given names. Manchu clan names (“hala”) are not used with their personal names, but occasionally a family name is used.

EXAMPLE 1

Tulišen

EXAMPLE 2

Hiowan Ye (叶欢)

EXAMPLE 3

Aisin-Gioro Ulhicun, linguist. The family name is “Aisin-Gioro”.

B.31. Mongolian

given name (+ optional clan name or family name)

or

genonymic + given name

Mongolian names traditionally consists of only one personal name.

EXAMPLE 1

Отрядын Гүндэгмаа (“Otryadyn Gündegmaa”), a Mongolian shooter, has “Otryadyn” as a patronym, “Gündegmaa” as given name.

EXAMPLE 2

Халтмаагийн Баттулга (“Khaltmaagiin Battulga”), President of Mongolia.

B.32. Nigerian

B.33. Pakistani

B.34. Portuguese

given name(s) + mother’s patronymic name(s) + father’s patronymic name(s)

Portuguese often have two personal names, although the first may at times be used on its own.

EXAMPLE 1

George Agostinho Baptista da Silva.

EXAMPLE 2

António Caetano de Abreu Freire Egas Moniz, Nobel prize winner. He was the child of Fernando de Pina Rezende Abreu and Maria do Rosario de Almeida e Sousa.

B.35. Romanian

B.36. Russian

B.37. Sikh

B.38. Sinhalese

B.39. Slavic

given name + patronymic name + family name

Slavic naming applies to Russian, Ukrainian, Belorussian, Bulgaria, Bosnia and Herzegovina, Serbia and Macedonia, as well as some populations of Kazakhstan, Kyrgyzstan, Uzbekistan and Turkmenistan.

EXAMPLE 1

Ива́н Константи́нович Айвазо́вский (“Ivan Konstantinovich Aivazovsky”). Ivan is the given name, Konstantinovich the patronymic name, Aivazovsky the family name.

EXAMPLE 2

Олександр Іванович Білаш, (“Oleksandr Ivanovych Bilash”). Oleksandr is the given name, Ivanovych the patronymic name, Bilash the family name.

B.40. Slovenian

B.41. Somali

B.42. Spanish

given name(s) + father's patronymic name(s) + mother's patronymic name(s)

EXAMPLE

Salvador de Madariaga y Rojo, Spanish diplomat, writer, historian and pacifist. Child of Darío José de Madariaga and María Ascensión Rojo.

B.43. Tamil

B.44. Thai

given name(s) + family name

Modern Thai names are composed of given names followed by the family name. Prior to 1913, family names were not required.

EXAMPLE

ชาน ลิขไพ (‘‘Chuan Likphai’’)

B.45. Turkish

B.46. Ukrainian

B.47. Vietnamese
